# ABOUT

---

**A**s the world shrinks under the impact of technology, regional and global dynamics are emerging rapidly. This brings in new challenges and opportunities for companies like us who are engaged completely in providing world class security and facility management services to our esteemed customers and the society at large.

These developments have urged us to bolster and build our verticals to be better engaged for growth, diversification, integration and modernization. Both choices and opportunity has increased manifold, compared to the past and we are making the most of it.

Triple JD is now a diversified company that has built a strong security hold, covering every aspect from guarding services to logical security, facility management, and investigation, training and manpower verticals.

Each of these business units were consciously developed and designed to complement each other and widen service offering. The security business (Triple JD) is our flagship company that has led the way to our meteoric in the past few years and propelled us into one of Nigeria's leading companies in the security industry in Nigeria.

With an astute strategy and insight into the new threats that define security in the 21<sup>st</sup> century and to effectively address them, Triple JD diversified into vertical that plug into the relevant concern areas such as integrated

facility management, research and consulting, investigation, cyber security, skill and development.

Triple JD security limited was launched in 2019 by Chief Joseph Har on a foundation of his sheers inspiration and passion-protection, security and intelligence.

Chief Joseph Har started the company with a few number of people who were recruited and placed in a modest premise in startup mode. In a span of few years the company has expanded aggressively pan Nigeria.

Triple FD has a training center providing one of the most professionally designed and managed, security and facility management services in Nigeria.
